

Figure 2. Student Learning Plan

Course: Biology

Goals:

1. Receive an A
2. Become an effective note-taker
3. Be aware of all biological processes

Test:

1. 1 test every two weeks
2. 1 final exam for Christmas break

Reading Plan:

1. Reread and actively synthesize notes and power points
2. Use note reduction to create concept maps and study guides
3. Read the chapters in the book before class using THIEVES

Daily Assignments:

1. Read text before class
2. Quiz myself over notes every night
3. Respond to Moodle discussion

Projects/Papers:

1. Research paper for biology lab

Study:

1. Use quiz notes to reorganize and restructure power points every night
2. Look over homework assignments on Moodle
3. Create concept cards for vocabulary
4. Create Bloom's Taxonomy Cards and study with a Group

Note-Taking:

1. Print off power points and create a note taking template for lecture before class
2. Mark notes in my textbook using THIEVES while I read
3. Use Quiz notes and note reduction for studying
